MASONS OFFICIATED AT WASHINGTON CITY

Office Building For House Members Will Be a Great Structure and Contain All Requirements Congressmen Need.

President's Assistant Secretary Is Alleged to Be Guilty of Brutal Treatment Toward Mrs. Minor Morris.

Washington, April 14.—In the presence of a distinguished assemblage, with the president of the United States taking a prominent part, with supreme court and senate, house of representatives and diplomatic corps as spectators and before a large concourse of people the cornerstone of the office building for the house of representatives was laid with impressive ceremonies Saturday afternoon.

The address of the day was made by President Roosevelt, who spoke on "The Man With the Muck Rake." The official programme was as follows:

Selection—"Star Spangled Banner," United States Marine band.

Laying cornerstone by grand master Masons of District of Columbia, assisted by officers of grand lodge.

Vocal Selections—"Oretta," Address by Grand Master Walter A. Brown.

Cornet Solo—Walter F. Smith. Address—J. G. Cannon, speaker of house.

Selection by United States engineers band. Address by Representative Hepburn of Iowa.

Address by James D. Richardson, representative from Tennessee and grand commander of supreme council Scottish Rite Masons.

Address by president of the United States.

A century and thirteen years ago George Washington, then president of the United States, assisting acting grand master Masons of Virginia and Maryland, laid the cornerstone of the nation's capitol. Then the nation had but 4,000,000 population and the city of Washington but 4,000 inhabitants.

Fifty-eight years later Millard Fillmore, president of the United States, laid the cornerstone of the extension to the capitol with similar impressive ceremonies, which characterized the laying of the first cornerstone. The nation when President Fillmore laid the cornerstone extension had grown from 4,000,000 souls in 1793 to 20,000,000 in 1851.

Saturday, with a more impressive ceremonial, the cornerstone of the largest office building, solely devoted to primary purposes of legislation and comfort of its legislators, in the world, was laid with the Masonic fraternity as active participants, assisted by President Roosevelt, who, like Presidents Washington and Fillmore, is a Mason, and who, following the immemorial custom, delivered the principal address.

In commemoration of the day's event the Masonic fraternity of the District of Columbia was ordered into line, and the grand lodge of Masons, escorted by several commanderies of Knights Templar, marched to the building. In the northeast section of the building, according to Masonic usages, the cornerstone was placed. The work on that section had been held back pending the ceremonies, but construction of the outer part of the rest of the edifice has progressed up to the second story.

Previous to the ceremony a copper box two and a half feet long and eighteen inches wide was placed in the stone in the presence of the grand treasurer of the grand lodge. The box contains many rare and unusual articles, together with coins of the United States and the series of postage stamps now in use.

Some idea of its size is given in the following frontages: On B street, 476 feet; on New Jersey avenue, 470 feet; on First street, 452 feet, and on C street, 348 feet, making a total frontage of 1,746 feet, or approximately one-third of a mile. The building will contain 410 rooms for members, together with a multiplicity of caucus rooms, audience rooms, postoffice, restaurants and other features of a modern office building.

MUCH STOCK CREMATED.

Three Hundred Horses and Mules Perish in Baltimore Blaze.

Baltimore, April 14.—About 300 horses and mules were burned to death in a fire of unknown origin which completely destroyed the auction stables at Moses Fox early Saturday. The damage is estimated at \$35,000.

The large terminal warehouse of the North Central railroad, which is next to the stables, was threatened, but the firemen kept the flames away from it.

ANOTHER EARTHQUAKE.

Damage by the Last One Said to Be Greater Than by First.

Tokio, April 14.—A violent earthquake occurred Saturday morning in the southern part of the Island of Formosa. Casualties and damage done are reported to have been heavier than those of the last earthquake.

Washington, April 14.—Senator Tillman has filed formal charges with the sub-committee considering the nomination of Benjamin F. Barnes, assistant secretary to the president, to be postmaster at Washington, and protested against his confirmation. These charges relate to the expulsion of Mrs. Minor Morris from the executive offices and assert inhumane and brutal treatment of the lady, and also allege that Barnes made a false statement about the case. The charges are four in number and are as follows:

"That Mr. Barnes is lacking in gentlemanly and manly consideration for ladies, which caused him to abuse his authority so far, as to order the expulsion from the executive offices of Mrs. Minor Morris on January 4, 1906, without any justification or good reason therefor.

"That having issued the order, he stood by and saw it executed in a most brutal and outrageous manner without interference, compelling the policeman to drag and finally, with the aid of a negro employed at the white house to carry her, with the negro holding her by the ankles, with her limbs exposed the entire distance from the executive offices at the western end of the white house to the eastern exit, where she was thrust into a cab and sent to the house of detention, by which brutal treatment her life was endangered and health seriously impaired from shock and injuries received.

"That after this tyrannical and outrageous abuse of his authority, he lodged charges of insanity against Mrs. Morris and compelled her to remain in prison for more than four hours, thus adding insult to injury and producing in the public mind impressions derogatory to her reputation and her mental condition.

"That he made a statement to the press which was full of falsehoods and which proves him to be lacking in integrity and high character which a high government official should have."

Senator Tillman asks that seven witnesses, including all the newspaper men at the white house at the time, be summoned before the committee.

CONGRESSMEN CLASH.

War of Words Waged in the Lower House of Congress.

Washington, April 14.—Speaker Cannon was distinctly in his element Friday when every indication pointed to a clash between Mr. Dalzell of Pennsylvania and Mr. Williams of Mississippi, over the use of a certain sentence in a speech made by Mr. Hopkins of Kentucky.

Acrimonious words were general. The debate grew in intensity of expression and the minority leader, Mr. Williams, had severely impugned the motives of Mr. Bennett, who had secured the passage of a joint resolution some days ago waiving the immigration laws in the case of an idiot. Finn and compelled them to quit work. No discussion and a clash seemed imminent between the Pennsylvanian and the Mississippian, when Speaker Cannon ordered both gentlemen to their seats and directed that the unparliamentary language used by Mr. Dalzell and Mr. Williams be stricken from the record, as both gentlemen were speaking out of order. The resolution was finally passed.

LARGE PROPOSITION.

Means Establishing of Bank With an Immense Capitalization.

New York, April 14.—It is reported that a proposition to establish a bank with a capital stock of \$50,000,000 for the purpose of regulating money and exchange rates during times of financial stringency such as that recently experienced in Wall Street is under consideration by interests connected with the Stock Exchange and by the National City bank of this city.

INCREASES IN INTENSITY.

Pitched Battle Results in Two Killed and Thirty Wounded.

London, April 14.—The correspondent of the Chronicle at Warsaw reports that the conflict between the Mariavite sect and Orthodox Catholics is increasing in intensity. A pitched battle in which 3,000 persons participated occurred on Friday near Warsaw, resulting in two Catholics being killed and thirty wounded.

The pope, the correspondent adds, has written to the Polish archbishop denouncing the Mariavite priests.

The Entomological Department.

The department of entomology,
here has just received the gold
medal awarded it by the Louisiana
Purchase Exposition at St. Louis.
The award was made for the ex-
cellent showing made by the de-
partment' "card system of keeping
rates and records, cages for breed-
ing insects and the boll weevil
showing the insect and its injuries."

The dies were engraved and the
medal was struck by the United
States Mint at Philadelphia, and
weighs about three and one-half
ounces. In the composition of the
obverse of the medal are shown
two figures, one of which, Columbia
tall and stately, is about to envelop
the youthful maiden by her side,
typifying the Louisiana Territory
in a flag of the Stars and Stripes,
thus receiving her into the sister-
hood of States. The other figure
is depicted in the act of divesting
herself of the cloak of France, sym-
bolized in the emblem of Napoleon
the busy bee, embroidered thereon.
In the background is shown the
rising sun, the dawn of new era
of progress to the Nation.

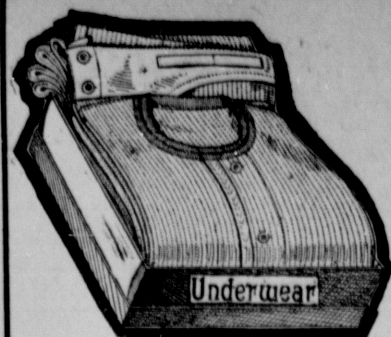

The reverse of the medal shows
an architectural tablet bearing an
inscription giving the grade of the
medal. Below the table are two
dolphins symbolizing our Eastern
and Western boundaries, the whole
surmounted by an American eagle
spreading his wings from ocean to
ocean.—The Battalion.

Barbarich in attempting to hand his other oar to the man in the stern, dropped it into the water. The boat was carried shoreward into the breakers, and Barbarich jumped overboard with a rope in an attempt to reach a safe landing and drag the boat away from the rocks. He was dashed upon the rocks and sustained injuries from which he soon died. One of the men remaining in the boat got the boat ashore, rescuing the party. He refused to give his name. Woolen Will Wear IN ALL WEATHERS

Stein-Bloch Clothes

The only reason why cotton is substituted for wool in mercerized fabrics is to cheapen the goods. A house is no stronger than its foundation. So with clothes. Cheap fabrics mean cheap clothes; and no matter how shrewdly they are tailored, they will be untrustworthy. Stein-Bloch employ no mercerized or cotton adulterated fabrics. Their goods are pure caustic-tested wool, and the clothes made from them wear and keep their shape.

The Stein-Bloch Wool Test

The Stein-Bloch Wool Test consists of a boiling solution of water and caustic potash, the chemical action of which dissolves wool but not cotton. The two samples here shown were originally of the same length, the test proved one to be all wool, consuming the part immersed and leaving only the blackened edge. The other proved to be an adulteration containing a large per cent of mercerized cotton.

TOWNE SCORES PRESIDENT.
Termed Greatest Promiser and Smallest Performer Since Judas Iscariot.
Kansas City, April 14.—Representative Charles A. Towne of New York, responding to a toast here at the Jefferson Day banquet, went outside his set speech to eulogize W. J. Bryan and bitterly attack President Roosevelt. Both sentiments aroused the most intense enthusiasm. His reference to the Nebraskan ending in a demonstration that amounted to an uproar. Mr. Towne did not refer to Mr. Bryan by name.
"Your toastmaster put upon me the duty of referring to your great standard bearer in 1896," said he. "I feel

CHARLES A. TOWNE.

almost that he himself in far away India must be catching the enthusiasm of your homage tonight."

Mr. Towne then read from an editorial in which sympathy was offered to a Democratic editor who was wont to write columns of imperialism and free silver. "I am as thankful as any one that the money question worked itself out so satisfactorily," resumed Mr. Towne, "but I cannot accept in silence the popular version why the predicted panic that was to follow the adoption of the gold standard did not materialize. The panic did not occur because since 1896 the country produced enough gold to supply the money market without material increase in the silver output. We owe our prosperity to Providence, not to policy. When men refused to open the mines God opened the mines."

Then Mr. Towne attacked President Roosevelt. "I am going to take you into my confidence this much," said the speaker, "by telling you I am going back to Washington with an avowed purpose of exposing President Roosevelt. He is the greatest promiser and smallest performer since the days of Judas Iscariot. He filched the rate legislation programme from the national Democratic platform, and now has laid down on his bill. He sends for legislators and lectures them like boys."

"And his tools! Consider them for a minute. They are the speaker and the degenerate house. Nowadays there are three steps in national legislation—getting permission of 'Uncle Joe' to introduce a bill and then securing its passage in the house and the senate. I get no show in the house. I might as well make the power of attorney to the speaker and go back home and get to work. I would not stay in congress or in the Democratic party if I did not believe Democracy eventually will triumph in national affairs."

It was far into the early hours of Saturday before the speech-making was finished, and Mr. Towne's response was too ne of the last toasts on the programme.
